Chapter Number, Title and ASE Area:		
After completing an Outline Grid and 3-Reading Grids, complete this chapter summary. In your own words (paraphrase), write a one-to-two paragraph summary about what was covered in the chapter or reading assignment. Include in the summary, an introduction, the main idea of the chapter, include 3-details or facts that support the main idea and a conclusion. At the bottom of the worksheet compare and contrast your summary findings to the objectives listed at the beginning of the chapter and the summary located at the end of the chapter and note any difference between the author's summary and your summary findings (if any).
