North Montco Technical Career Center

Automotive Technology

Math T-Chart Summary Worksheet

Name:	Session:	Date:
Topic / Process:		
In your own words (paraphrase), write a minimum 5-sentence paragraph (or summary) describing why math is important in understanding the automotive technical topic or process covered within the Math T-Chart. The paragraph/summary must include an introduction, a main idea, 3-specific details or facts, if this math relates to or is relevant to a math concept taught within your sending school's math course (if yes, how?) and a conclusion. Your response must be in sentence/paragraph form and hand-written in pencil, blue or black ink on this form or lined paper. NO CREDIT will be issued if completed on a word processor. Remember, spelling, grammar, punctuation and hand-writing count!
